

Community and Project Updates

As we reflect on June, Kawjo is proud of the impactful work we have done to create sustainable change for vulnerable communities across Malawi. Over the past several weeks, our team and partners have collaborated to execute our vision, advance ongoing projects, and position ourselves for success in the months ahead.

The achievements we have reached in June demonstrate what is possible through collaboration and commitment from our stakeholders and surrounding communities. From important project milestones to on-the-ground initiatives, we thrive on the power of local engagement and inclusive partnerships that drive sustainable change.

We encourage you to explore the latest updates on our current projects and invite you to get involved and support us in expanding our efforts to transform more lives around Malawi.

KAWJO Foundation welcomes new staff

Morgan Gill

Paul Mapepa

We are excited to welcome Morgan Gill and Paul Mapepa to the team. Morgan joins Kawjo as a business development advisor while Paul joins as an Accountant.

Project Updates

Sustainable Aquatic Food Project (SAF)

[Learn More about this Project Here](#)

Conducted coaching and follow-up sessions with new fish farmers in Kasungu

Conducted Hatchery Operators monitoring and sampling to assess progress on fingerlings production

Conducted refresher trainings on previously trained fish farmers in Dedza, Kasungu, Dowa, Ntchisi, Lilongwe and Mchinji

Promoted adoption of Climate Smart Aquaculture practices with emphasis on climate change adaptation and resilience

This Project is Funded by [GIZ](#)

Sustainable fish farming practices training in progress in Mchinji

Participants in Lilongwe pose for a photo with Project Officer

Building Resilience for Women in Fisheries and Aquaculture(WE4D)

[Learn More about this Project Here](#)

Completed installation of greenhouse in Dedza

Monitored greenhouse based fingerlings production integrated with horticulture

This Project is Funded by [GIZ](#)

Dowa greenhouse for fingerlings production

Mayani Dedza greenhouse for fingerlings production

Greenhouse based Integrated Agriculture Aquaculture

The Kawjo Foundation is always seeking new opportunities to partner with organizations and entities to build a lasting impact in vulnerable communities across Malawi. We are currently seeking partners to work with us on our farm in Mpingu, where we are implementing a training hub that equips youth and women with practical skills in sustainable agriculture, aquaculture, and agribusiness. The project will provide hands-on training in climate-smart farming, fish farming, vegetable production, and small business development to support sustainable livelihoods. If you are interested in being a part of this initiative, please contact our Resource Mobilization Officer, Yamikani Muha, at yamikanimuha9@gmail.com

Community Impact

In June, we continued supporting our community members in gaining Climate Smart Agriculture Aquaculture skills through our development initiatives.

Malawi, with a population of over 21 million people, faces significant economic challenges—70% of citizens live in extreme poverty, earning less than \$1.99 a day. Most communities rely on agriculture and aquaculture for their livelihoods, yet small-scale farmers continue to face low productivity, climate shocks, and structural barriers.

The Kawjo Foundation is committed to addressing these long-term challenges by providing development skills and sustainable opportunities that ease pressure on an agriculture-dependent economy and strengthen the resilience of vulnerable communities across Malawi.

As we celebrate the accomplishments our team has made during June, we continue to look ahead and work to advance our ongoing projects, preparing for future opportunities and partnerships that will strengthen sustainable development practices across Malawi. We encourage you to stay connected, get involved and continue supporting Kawjo's efforts to transform lives and create meaningful sustainable change.
